Suddenly at the end of the road, appears the

Juniors Suites

Or

The Junior Or Suite (room with balcony and jacuzzi)

We would say the South! A Provençal evasion where sing the South colors with its golden lianas which invade walls and its glittering golden sheets hining like the sun.

The Junior Zen Suite

Zen! Space was completely dedicated to the relaxation and to the plenitude, it is a charming bracket in a raw world where everything is only water, wood, concrete and felt-tip.

Classic Guest Rooms

Pad

Suggestive !

It calls to the wake of the feelings. With its skin-like touch, it is a journey where light-coloured harmonies join in and become entangled with passion.

Cinema

Silence, on stage!

It is a tribute space where the 7th Art reminds its major black & white passages and where the colour slowly shows itself by small details.

Miller (with independant access)

Historical ! Past and futur get united into present ; hession and iron show in their own way the Moulin de Mougins in an universe both rough and contemporary.

Classic Guest Rooms

Butterfly

A real cocoon

whose web takes over the whole bedroom. Butterflies hence fly towards the bathroom where the mosaic reminds the feature of their wings.

Cube

A Children Game !

A room thought as a building game where fall down cubes of velvet wallpaper, lighted cubes, Marseille soap cubes...

Aquatic

Essential!

Inside, water owns the space and its azure-blue brings us towards the softness and the serenity of the depths.
